

### In the Dark? There's an App for That!

Color the light bulb.

When you get tucked into bed and your parents turn out the lights you're in the dark, right? Do you like the darkness? If you're afraid of the dark what could you use that might help? That's right, a night light! You just plug it in and it gives off a gentle light all through the night. A little thing like a night light can be very comforting when you find yourself in the dark. Jesus can also be a light for us. Whenever we are in a dark place or are feeling afraid, Jesus is there to comfort us.
